Cumulative contents of Volume 38

Volume 38, Number 1, 1999

1 **Editorial viewpoint**

3 **Robust estimation of process frequency response from relay feedback**
Q.-G. Wang, H.-W. Fung, Y. Zhang

11 **Predictive PID**
R.M. Miller, S.L. Shah, R.K. Wood, E.K. Kwok

25 **Auto-tuning of output predictive PI controller**
W.L. Lo, A.B. Rad, K.M. Tsang

37 **Simplifying controller for process control of systems with large dead time**
R. Gorecki, J. Jekielek

43 **Comparative studies of three adaptive controllers**
H.L. Ho, A.B. Rad, C.C. Chan, Y.K. Wong

55 **Variable structure control applied to chemical processes with inverse response**
O. Camacho, R. Rojas, W. Garcia

73 **Control and design of crystal growth furnace**
C. Batur, W.M.B. Duval, R.J. Bennett

87 **Automation of a steam generation plant using hybrid systems**
A. Alvarez, W. Garcia, O. Camacho, E. Chacón

101 **The VLSI route for highly reliable ESDs**
G. Dragffy

Volume 38, Number 2, 1999

121 **Editorial viewpoint**

123 **Flow induced vibration of thermowells**
D.S. Bartran, J.M. Kinsey, R. Schappelle, R. Yee

133 **An error in measuring the liquid volume inside variously shaped reservoirs**
Y. Ermolin, V. Ermolin

Published by Elsevier Science Ltd.

139 On-line crystallinity measurement using laser Raman spectrometer and neural network
C. Batur, M.H. Vhora, M. Cakmak, T. Serhatkulu
149 Experimental investigations upon the pressure effects on two Coriolis mass flowmeters of different generation
F. Cascetta
157 Controller tuning
S.R. Wilton
171 Comparison of dead time compensation schemes for discrete implementation of the Q-PID algorithm
E. Brey, P.A.S. Ralston
185 Experimental implementation of an on-line optimization scheme to batch PMMA synthesis
M. Krothapally, B. Bennett, W. Finney, S. Palanki
199 Corrigendum

Volume 38, Number 3, 1999

201 Editorial viewpoint
203 Integrated imaging linear polarimeter
Z.K. Kalayjian, A.G. Andreou
211 Chemometric characterization of batch reactions
P.J. Gemperline, M. Zhu, E. Cash, D.S. Walker
217 Digital filtering in the control of a batch distillation column
R.M. Oisiovici, S.L. Cruz, J.A.F.R. Pereira
225 A fast algorithm for reduced-order modelling
Q.-G. Wang, Y. Zhang
231 Nonlinear control of an activated sludge aeration process: use of fuzzy techniques for tuning PID controllers
M.A. Rodrigo, A. Seco, J. Ferrer, J.M. Penya-roja, J.L. Valverde
243 PID tuning with exact gain and phase margins
Q.-G. Wang, H.-W. Fung, Y. Zhang
251 Application of neural network control to distillation and an experimental comparison with other advanced controllers
P. Dutta, R.R. Rhinehart
279 Accurate semi-empirical predictive modeling of an underdamped process
D.K. Rollins, M. McNaughton, C.M. Schulze-Hewett
291 Common cause and common sense, designing failure out of your safety instrumented systems (SIS)

Volume 38, Number 4, 1999

301 Editorial viewpoint
303 Density and viscosity monitoring systems using Coriolis flow meters
P. Kalotay

311 Measurement of a large impulse torque including measurand reconstruction
L.K. Lauderbaugh Saunders, N. Vahdati

323 An H_∞ deconvolution filter and its application to ultrasonic nondestructive evaluation of materials
T.C. Hanshaw, M.J. Anderson, C.S. Hsu

337 Development of a NMLFPE (non-monochromatic lightwave Fabry-Perot etalon) for smart structure sensor applications
M.T.E. Kahn

347 Correlation between gas molecular weight, heating value and sonic speed under variable compositions of natural gas
L. Burstein, D. Ingman, Y. Michlin

361 Adaptive GPC control of melt temperature in injection moulding
S.N. Huang, K.K. Tan, T.H. Lee

375 Control of chemical processes using neural networks: implementation in a plant for xylose production
E. Alvarez, C. Riverol, J.M. Navaza

383 A neural network strategy for end-point optimization of batch processes
M. Krothapally, S. Palanki

397 Author index of Volume 38

401 Cumulative contents of Volume 38
